

This is a home made CD !
A production originally released on tapes in the year 1996.
The copies have been made one by one,
This is a limited edition!

This is a collection of music pieces that could be defined as soundscape or ambience music. Almost all of them are based on improvisations.
The music paints different modes and atmospheres.
Some times I use this music in connection with theatre or multimedia performance.
Therefore, this production is more like a composition of illustrations then particular tunes.
In one word, it's more like "pictures".

PICTURES is a collection of some of those improvisations, created and recorded in the years 1992-1996.
The early recordings are made on a quite simple equipment as a 4-track portastudio and with "old fashion" analogue synthesizers, compered with the last recordings where I've been using multitrack recording, sequencers and more digital technology.

Thanks to STEFAN NYBERG
for a very intensive and untuned guitar solo on
"Calimba Improvisation" (A4).

Thanks to LENNART "KONVALJEN" JOHANSSON
for playing the acordion on "Papalagi And God" (A5).

Thanks to HANNE SIBONI GRAVESEN
for painting the cover picture.
